*** Customers must sign a two-year commitment to receive discounts. Discounts apply to length of customer's term plan. Service agreements must be signed by April 30, 2002. Offer only available within Canadian collocated facilities.

The network is **down**,
customers are cut off and you're on
HOLD.

You don't have a
PRAYER.

It's time
for an
Internet
connection
you can
rely on.

COMMUNICATION IS VITAL.

Your business relies on the Internet for communications to customers, suppliers and employees. A down connection means you can't communicate with them. WorldCom understands how businesses use the Internet. That's why over 70,000 companies worldwide choose WorldCom for their Internet connections.

Here's why companies choose WorldCom:

- Interactive Week's 2001 Customer Survey ranked WorldCom IP and Data Products as Best Performing, Most Reliable, Best in Customer Service
- Over 52% of the Fortune 1000 and their subsidiaries are WorldCom IP customers
- WorldCom has the farthest-reaching global network in the world - over 3,600 Points of Presence globally
- WorldCom offers the fastest speed available over IP today.

WorldCom delivers a broad range of cost-effective data communications solutions that meet your business needs today. In addition to our preeminent IP network, we offer internet connections, IP VPNs, firewalls and hosting solutions.

Whether you're looking to outsource a fully managed solution or simply want to add redundancy to your existing system, WorldCom is by your side for the long haul. The bottom-line? Value for your money today and tomorrow, with no compromise on reliability or security.

Communicate when you need to with solutions from WorldCom.
